

IMBANGAN PEMBAYARAN

BALANCE OF PAYMENTS

IMBANGAN PEMBAYARAN

Nota Keterangan

1. Anggaran imbangan pembayaran Malaysia memaparkan prestasi ekonomi Malaysia berbanding negara-negara lain dari segi magnitud dan jenis transaksi dalam Akaun Semasa dan juga didalam aliran Akaun Modal serta Kewangan. Secara khususnya, kedudukan Akaun Semasa menunjukkan ringkasan tentang transaksi yang berlaku dalam item/komponen barang, perkhidmatan, pendapatan primer dan pendapatan sekunder, dan menggambarkan tentang pendapatan dan perbelanjaan yang dinilai dari segi pertukaran asing keseluruhan Malaysia bagi tempoh di bawah kajian.
2. Imbangan akaun semasa mencerminkan tentang peruntukan sumber bersih kepada atau negara lain, manakala akaun kewangan menunjukkan sama ada Malaysia mempunyai tuntutan bersih terhadap atau liabiliti bersih kepada negara lain di dunia.
3. Perangkaan bagi tahun 1947 dan 1948 yang merujuk kepada Persekutuan Tanah Melayu dan Singapura bersumberkan *data daripada "The National Income of Malaya, 1947 – 1949"* oleh Dr. Frederic Benham.
4. Bagi tahun 1949 sehingga 1953, perangkaan yang disusun meliputi Persekutuan Tanah Melayu dan Singapura, yang dipetik daripada laporan, *"The Economic Development of Malaya"* yang disusun oleh International Bank for Reconstruction and Development (IBRD – September, 1955).

BALANCE OF PAYMENTS

Explanatory Notes

1. *Malaysia's balance of payments estimates provides information on Malaysia's economic performance vis-à-vis the rest of the world in terms of the magnitude and types of transactions in Current Account and also in Capital and Financial Account flows. In particular, the Current Account position summarizes the country's transactions in goods, services, primary income and secondary income, and presents an overall view of Malaysia's earnings and spending in terms of foreign exchange for the period under review.*
2. *The current account balance reflects the net provision of resources to or from the rest of the world, while financial account indicates as to whether Malaysia has net claims on or liabilities to the rest of the world.*
3. *In the year 1947 and 1948, the data pertain to the Federation of Malaya and Singapore were obtained from "The National Income of Malaya, 1947 – 1949" by Dr. Frederic Benham.*
4. *Data for the period 1949 to 1953 refer to the Federation of Malaya and Singapore and were extracted from the report "The Economic Development of Malaya" compiled by the International Bank for Reconstruction and Development, (IBRD – September, 1955).*

5. Anggaran bagi tahun 1954 tidak diperoleh. Bagi tempoh 1955 hingga 1960, perangkaan yang disusun hanya merujuk kepada Persekutuan Tanah Melayu sahaja, sumbernya ialah “*National Accounts of the Federation of Malaya 1955 – 1960 Reports*”.
6. Jabatan Perangkaan Malaysia mula menyusun perangkaan Imbangan Pembayaran mulai tahun 1961. Bagi tempoh tersebut hingga 1962, ia merujuk kepada Persekutuan Tanah Melayu, British North Borneo (Sabah) dan Sarawak. Mulai tahun 1963, perangkaan yang disusun merujuk kepada Malaysia.
7. Siri masa disusun berdasarkan:
- BPM3: 1969 - 1973
 - BPM4: 1974 - 1998
 - BPM5: 1999 - 2004
 - BPM6: 2005 - 2009 (tanpa ‘treatment’ barang untuk prosesan)
 - BPM6: 2010 - dan seterusnya

Bermula 2010, data eksport dan import barang untuk prosesan (GFP) yang tiada pertukaran hak milik antara residen dengan bukan residen dikeluarkan daripada penyusunan eksport dan import barang.

8. Bagi tempoh 1947 – 1953, nilai import dinilai berasaskan *cost including freight and insurance (c.i.f)*, manakala bagi tahun 1955 dan seterusnya, ia dinilai berasaskan *free on board (f.o.b)*.
9. Jabatan Perangkaan Malaysia telah memulakan penyusunan Laporan Kedudukan Pelaburan Antarabangsa (IIP) tahunan dari tahun 2001, manakala bermula suku pertama 2015, IIP telah diterbitkan secara suku tahunan.
5. *The estimates for 1954 were not available. For the period of 1955 to 1960, the data refer only to the Federation of Malaya and were extracted from the “National Accounts of the Federation of Malaya 1955 – 1960 Reports”.*
6. *The Department of Statistics, Malaysia commenced the compilation for the year 1961. For that period until 1962, the data refer to the Federation of Malaya, British North Borneo (Sabah) and Sarawak. From the year 1963 onwards, the data pertain to Malaysia.*
7. *Data series were compiled based on:*
- *BPM3: 1969 - 1973*
 - *BPM4: 1974 - 1998*
 - *BPM5: 1999 - 2004*
 - *BPM6: 2005 - 2009 (without treatment of goods for processing)*
 - *BPM6: 2010 - and onwards*
- Starting 2010, exports and imports of goods for processing (GFP) without change of ownership between resident and non-resident are excluded from the compilation of goods exports and imports.*
8. *For the period of 1947 – 1953, the imports were valued at cost including freight and insurance (c.i.f), while for year 1955 and thereafter, the imports were valued at free on board (f.o.b).*
9. *The Department of Statistics, Malaysia commenced the compilation of annual International Investment Position (IIP) from the year 2001, while starting the first quarter of 2015, IIP is published on a quarterly basis.*

10. Laporan IIP menyediakan perangkaan tentang stok aset kewangan dan liabiliti asing Malaysia pada sesuatu masa (biasanya pada penghujung tahun).

11. Perbezaan diantara nilai aset dengan nilai liabiliti mencerminkan IIP bersih Malaysia yang menunjukkan perbandingan diantara apa yang Malaysia miliki dengan yang ia berhutang. Secara khusus, jika kedudukan aset Malaysia melebihi liabilitinya, ini menunjukkan ekonomi Malaysia berada pada IIP yang positif. Aset asing dan liabiliti dikelaskan mengikut jenis pelaburan iaitu pelaburan langsung, pelaburan portfolio, derivatif kewangan, pelaburan lain dan aset rizab (hanya untuk aset).

12. Pelaburan Langsung di Luar Negara (DIA)

DIA merujuk kepada pelaburan dalam bentuk instrumen kewangan iaitu modal ekuiti, pelaburan dilabur semula dan modal lain daripada pelabur langsung Malaysia dalam enterpris pelaburan langsung di luar negeri.

13. Pelaburan Langsung Asing (FDI)

FDI merujuk kepada pelaburan dalam bentuk instrumen kewangan daripada pelabur langsung asing dalam enterpris langsung asing di Malaysia.

The IIP statements provide statistics on the stock of Malaysia's external financial assets and liabilities at one point of time (usually at end of year).

10. *The difference between the assets and liabilities reflects Malaysia's net IIP which shows what Malaysia owns in relation to what it owes. In particular, should Malaysia's external assets exceed its liabilities, it indicates that the economy of Malaysia is in a positive net IIP. The external assets and liabilities are further classified by functional types of investment, namely direct investment, portfolio investment, financial derivatives, other investment and reserve assets (only for assets).*

11. Direct Investment Abroad (DIA)

DIA refers to investment in the form of financial instruments namely equity capital, reinvested earnings and other capital by Malaysian direct investors in direct investment enterprises abroad.

12. Foreign Direct Investment (FDI)

FDI refers to investment in the form of financial instruments by foreign direct investors in direct investment enterprises in Malaysia.

13. Klasifikasi Sektor

Sektor dikelaskan mengikut Piawaian Klasifikasi Industri Malaysia (MSIC) 2008 Ver. 1.0. Bagi tujuan laporan ini, pengelasan sektor ekonomi adalah berdasarkan aktiviti utama syarikat induk Malaysia.

16. Aliran Transaksi

Ia merujuk kepada perolehan dan pelupusan asset kewangan dan liabiliti dalam tempoh rujukan. Ia terdiri daripada transaksi dalam tiga instrumen kewangan utama iaitu modal ekuiti, perolehan dilabur semula dan modal lain. Bagi kes DIA, nilai negatif (-) menunjukkan aliran keluar atau penambahan dalam pelaburan.

17. Kedudukan Pelaburan Langsung

Ia merujuk kepada jumlah stok modal pelaburan langsung pada akhir tempoh rujukan. Kedudukan akhir diperoleh daripada stok awal ditambah aliran transaksi kewangan dan ditambah perubahan lain (perubahan harga, kadar pertukaran asing dan lain-lain).

15. Sector Classification

The sectors are classified according to Malaysia Standard Industrial Classification (MSIC) 2008 Ver.1.0. For the purpose of this report, the classifications of economic sectors are based on the principal activities of Malaysia's parent companies.

16. Flows

This refers to acquisitions and disposals of financial assets and liabilities during a reference period. It comprises of transactions in three major financial instruments namely equity capital, reinvested earnings and other capital. In the case of DIA, negative values (-) indicate an outflow or the increase in investment.

17. Direct Investment Position

This refers to total stock of direct investment as at end of reference period. The end position is derived from opening stock plus financial flows and other changes (price changes, exchange rate changes and other changes).
