INFORMAL SECTOR WORK FORCE SURVEY REPORT, MALAYSIA, 2017

INTRODUCTION

Informal Sector Survey is conducted by the Department of Statistics Malaysia (DOSM) using household approach to obtain data on the structure of employment in the informal sector. This survey covers citizens and non-citizens in urban and rural areas for the whole of Malaysia.

The Informal Sector Workforce Survey Report is an annual publication which presents the principal statistics on employment in the informal sector for the working age of 15 to 64 years old by selected demographic and socioeconomic characteristics such as sex, age group, educational attainment, category of occupation and industry.

In 2017, there were 1.36 million employed persons in the informal sector comprising 9.4 per cent share of the total employment in Malaysia

In 2017, there were 1.36 million employed persons in the informal sector comprising 9.4 per cent share of the total employment in Malaysia, lower than 2015 (10.0%). Meanwhile, the share of informal sector employment of the employment in non-agricultural sector was 10.6 per cent (2015: 11.4%). The annual growth rate of informal sector employment decreased 1.4 per cent in 2017 as compared to an increase of 2.9 per cent in 2015.
